Start at the slower end of the training paces and move towards the faster end as you progress through the coming months of training

Please note that if you cannot run the Time Trial times, this does not mean you're doomed to failure. These are guidelines that you should aim for towards the end of your training programme.

## Bridges

Lie on your back with feet hip-width apart. Press into your heels and lift your hips until your knees are bent 90 degrees. Hold for 20 seconds in week 1; add five seconds each week. Once you reach 45 seconds, drop to 30 and do single-leg bridges, resting your hands on your hips to ensure that they stay level.

WE'RE ALWAYS RUNNING at RuNNERSWORLD.CO.ZA
